

In 2006, the Presbytery of Newark implemented a new ministry design. The goal was to involve more people, releasing more resources to do more creative, collaborative ministry in our communities. If you are a stakeholder in the presbytery's successful future, we want your feedback as to how the new ways of doing "presbytery" are meeting these goals. A findings report will be distributed.

Traffic Light Scale: Circle **3-Green** if we are on target. Circle **2-Yellow** if you're not sure about the area asked about. Circle **1-Red** if you think we need big improvement in this area. This feedback will help improve our ministry together. Thanks!
